VOTE MAY 17TH

**CRAIG
 Huey**
 for CONGRESS

MAY 17TH

**CRAIG
 Huey**
 for CONGRESS

“I will demand accountability and justification for every dollar the government spends. As taxpayers, you deserve no less.” —Craig Huey

In the large field of 16 candidates running for Congress, only one truly stands out.

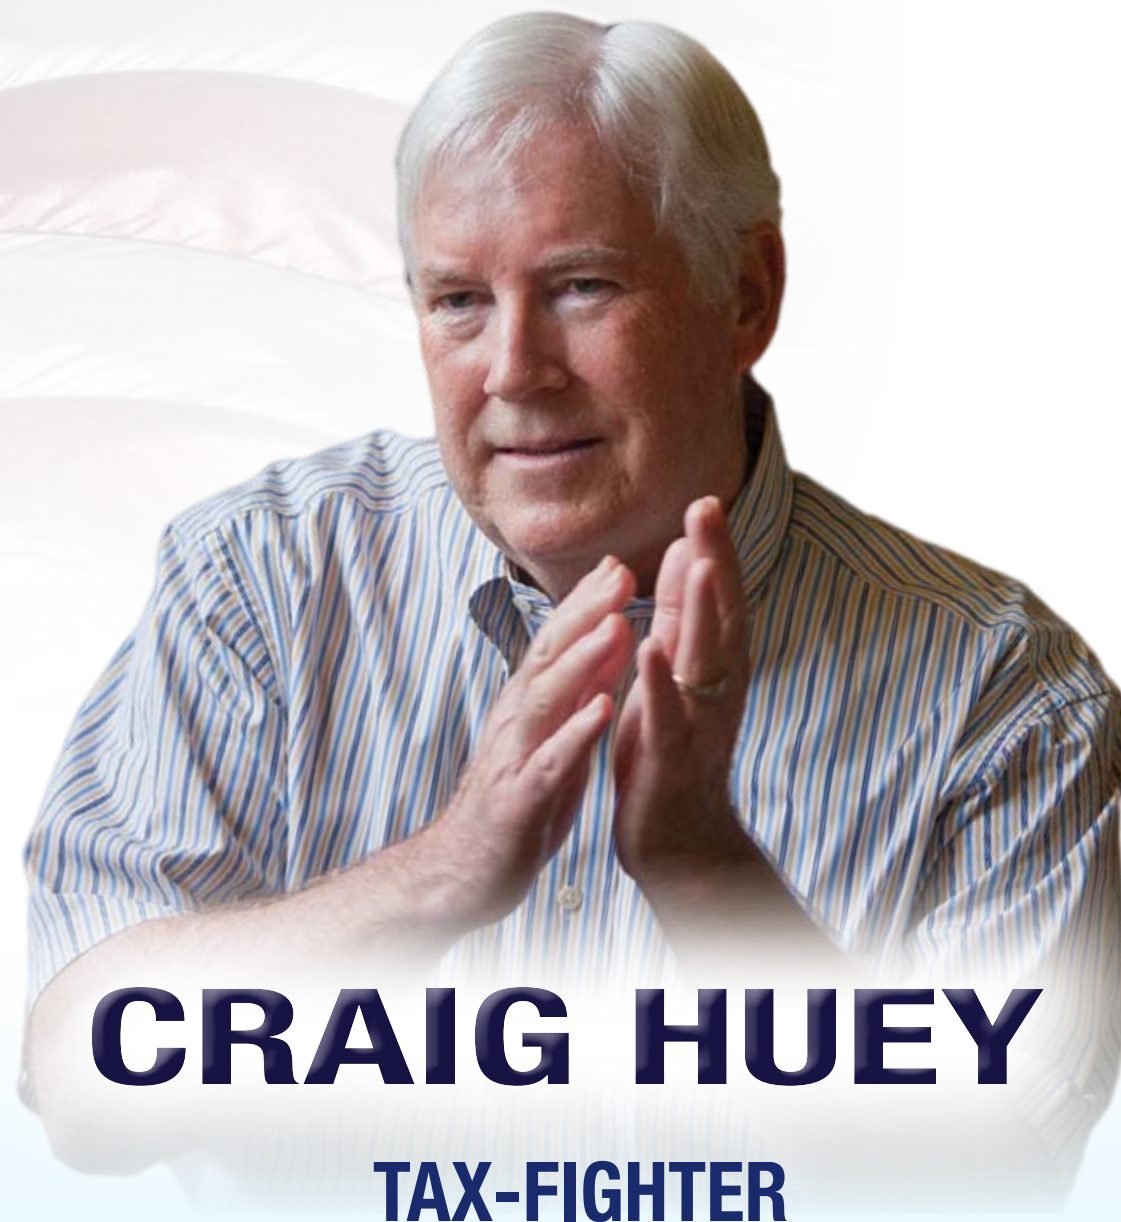

Craig Huey grew up in the South Bay, raised his family here and owns a successful small business that has created hundreds of local jobs.

And he offers real world experience that includes hard work and perseverance—qualities hard to find in a government dominated by lawyers and career politicians who bend to special interests.

JOB-CREATOR

More than six million jobs have been lost since the misguided stimulus and the Wall Street and corporate bailouts. As a business owner, I know that job creation happens when businesses are released from excessive taxation and the red tape of bureaucracy.

That's why I will introduce legislation that will preserve jobs by cutting taxes, rolling back economy-killing regulations and giving business owners the opportunities they need to grow and expand in our district, state and nation.

TAX-FIGHTER

Politicians think they can spend your money better than you can.

It's outrageous. We need tax reduction and tax reform now—before it's too late.

I was the first candidate for Congress in our district to sign the Americans for Tax Reform Pledge to never vote for an increase in taxes—ever.

Craig's unique background and experience has given him the ability to be a persuasive voice for policies that create jobs, end the deceit and lower taxes on families and small business.

With our nation's economy in shambles, we need leaders with a bold vision to restore our jobs, freedom and prosperity.

Craig Huey.
It's time.

SPENDING HAWK

A major cause of our economic crisis is the massive federal deficits run up by free-spending politicians. We must put an end to deficit spending. I will fight to balance the budget and dramatically reduce spending in order to stop the government from compromising our children and grandchildren's future.

I'm committed to a Congress operating under a balanced budget. I will even support a constitutional amendment that compels Congress to balance the federal budget every year.
