4
Ways to Protect American Jobs & Get Our Economy Back on Track

Duncan D. Hunter
for Congress

Duncan D. Hunter's Four Priorities to Get America's Economy Back on Track

1 Protect San Diego's Defense Industry Jobs

Duncan Hunter will protect San Diego's 375,000 defense related jobs, which account for 27% of all jobs in the county. **San Diego's economy depends on having a strong advocate in Congress working to protect local industries. Duncan Hunter will be that advocate to keep our bases open and keep jobs here.**

3 Enact Fair Trade Agreements to Protect Jobs

With 12 million American workers depending on trade for their jobs, opening up new markets for American goods is vitally important to our economic health. But too many recent trade agreements have been one-way streets, or worse, they have benefited countries hostile to America. **Duncan D. Hunter supports fair trade agreements that both open up markets and protect U.S. jobs from unfair competition.**

4 Stop Illegal Immigration

The conventional wisdom that illegal aliens only take jobs that Americans refuse to do is flat wrong. At least 15% of all construction jobs and a growing number of manufacturing jobs are being filled by illegal aliens. This not only costs jobs for Americans; it depresses wages for everyone else. **Duncan D. Hunter will do everything in his power to complete construction of the border fence and stop the flow of illegal aliens into our country.**

Elect Duncan Hunter on Nov. 4th
