LaMalfa for STATE SENATE

“In 1776 a patriotic pamphlet called Common Sense was the most read book in America, second to the Bible.”

“Common Sense is something that is lost on many of today’s political leaders, especially down in Sacramento. I’m working to change that.”

“Here are my common sense ideas about some important issues.”

Doug LaMalfa

Our Resources

Doug believes in protecting our water rights and developing more water storage. He is a leader in opposing burdensome environmental regulations.

Doug LaMalfa has made it a priority to educate policymakers on the importance of resource industries. **Doug successfully authored and passed the Forest Fire Protection Act of 2004 to allow landowners to make their property fire-safe.**

Our Money

Doug LaMalfa has never supported raising taxes – families pay enough already. **The Howard Jarvis Taxpayers Association endorses just one candidate in the race for State Senate and that’s Doug LaMalfa.**

Doug will hold the legislature and the bureaucrats accountable for every dollar they spend. Unlike his opponent, Doug LaMalfa voted NO on the reckless 2007-08 state budget that increased spending by \$10 BILLION and sent California on the road to financial ruin.

Our Values

Doug helped lead Northern California efforts to protect marriage, through both Proposition 22 and Proposition 8, that **reaffirmed marriage is only between one man and one woman.**

He joined the late Assemblyman Bernie Richter as a key early supporter of Proposition 209 that ended race, gender and ethnic quotas in California.

Our Freedom

Doug LaMalfa believes that as government grows, our freedom shrinks. He believes that government should do no harm and that limited government means government should do only what people cannot do for themselves.

LaMalfa is a gun owner with a 100% NRA rating for his strong stance in support of the 2nd Amendment. **He successfully authored a law to prohibit gun seizures such as what happened in New Orleans post-Katrina.**
