

DANA ROHRBACHER
UNITED STATES REPRESENTATIVE

Paid for and authorized by the Committee to Re-Elect
Congressman Rohrabacher #C-00224691

www.Rohrabacher.com

- ▶ Co-sponsored legislation to increase America's alternative energy production and to promote energy efficient buildings and alternative fuel vehicles.
- ▶ Voted to put into production the large deposits of oil under Alaska's Arctic plain.
- ▶ Championed the production of non-food source bio-fuels (bio-diesel).
- ▶ Voted to cut back bureaucratic red tape that blocks construction of new oil refineries.

In addition, Dana has:

- ★ *Author of a landmark solar energy bill to speed government approval of 130 pending solar power projects on federal land.*

To Make America Energy Independent

**Candidate
Debbie
Cook**

“I was **laughing** this morning as people were celebrating that gas prices are going down.”

Debbie Cook in her own words:

“I was laughing this morning as people were celebrating that gas prices are going down. That’s the worst thing that could happen.”

Debbie Cook’s reaction to gas prices moving down.

High gas prices are no laughing matter.

Our economy is suffering and families are hurting.

But Debbie Cook doesn’t get it.

She opposes new oil drilling in the Arctic and she opposes speeding up approvals for new solar energy plants.

Debbie Cook should be helping America, not blaming Americans for high energy prices.

“People need to make a decision to drive less and change their eating habits.”

Debbie Cook on why she opposes domestic oil exploration and drilling.

Debbie Cook:

Her liberal views are too extreme for us!
